

Nickel Titanium Wire

SUPER ELASTIC NICKEL TITANIUM ARCHWIRE

- Possible to reduce the medical treatment period as it operates regular soft power
- Excellent smoothness as it passed polishing process
- Excellent softness and human body affinity
- Decrease change of wires and frequent adjustment

	Size(inch)	Type	QTY
Round	0.012	True Arch	10 wires
	0.014		
	0.016		
	0.018		
	0.020		
Rectangular	0.016 x0.016	Ovoid	Pack
	0.016 x0.022		
	0.017 x0.025		
	0.018 x0.025		
	0.019 x0.025		
	0.021 x0.025		

NICKEL TITANIUM ARCHWIRE 35 °PLUS WIRE™

- Continuous force as it returns to it's original shape
- Light forces for easier ligation in difficult cases
- Low forces for greater patient comfort
- Improved resiliency provides measurably more resistant to permanent deformation

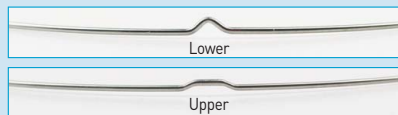

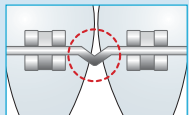

True form	Europa II
0.012	0.012
0.014	0.014
0.016	0.016
0.018	
0.016 x0.022	0.014 x0.025
0.017 x0.025	0.016 x0.025
0.018 x0.025	0.018 x0.025
0.019 x0.025	

Damon Universal compatible with Europa II

SUPER ELASTIC DIMPLED NICKEL TITANIUM ARCHWIRE

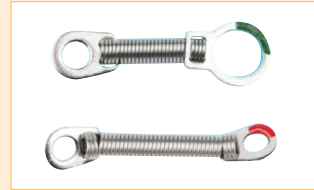

- Easy to check the exact center of the wire
- Preventing the wire movement (left-right) after setting a wire into oral
- Preventing the wire rotate by mastication activity after setting a wire into oral
- Compatible to use with any brackets

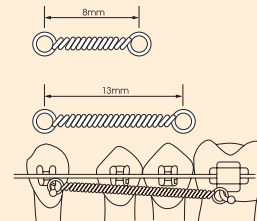

Nickel Titanium Coil Spring

CLOSED COIL SPRING NICKEL TITANIUM

- High elasticity spring with constant strength of stability
- Fatigue-free, low, uniform transfer of force
- Divides to Heavy, Medium and Light depends on the strength
- Various eyelet sizes for convenient engagement
- Colored eyelet according to force level

Type	Force (g)	Length (mm)	Eyelets Size
Closed	Light	8mm	∅1.5 - ∅1.5
	Medium	13mm	∅1.5 - ∅2.0
	Heavy		∅1.5 - ∅2.5
	10pcs / Pack		

OPEN COIL SPRING NICKEL TITANIUM

- Soft and efficient strength of stability with possible of freely use
- Size (inch): 0.010" x0.030"[0.25" x0.75mm] 21 [53.34cm]

Type	Length
Open	21 inch (1 spool / pack)

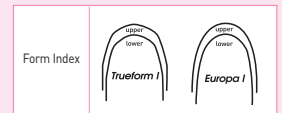

Stainless Steel

STAINLESS STEEL ARCHWIRE

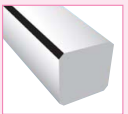

- Optimum torque transfer through edge round
- Fully bio compatible i.e. Resistant to oral corrosion
- High cross-sectional accuracy
- Low friction value

	Size (inch)	Type	QTY
Round	0.014	True Arch Europa I (Medium)	25 wires / pack
	0.016		
	0.018		
	0.020		
	0.020		
Rectangular	0.016 x0.016	True Arch Europa I (Medium)	25 wires / pack
	0.017 x0.022		
	0.017 x0.025		
	0.018 x0.022		
	0.018 x0.025		
	0.019 x0.025	Straight	10 wires / pack
	0.020 x0.025		
	0.021 x0.025		
	0.021 x0.025		
	0.0215 x0.028		

STRAIGHT LENGTHS RECTANGULAR

- High straightness
- Straight wire is applicable only for the rectangular size

STAINLESS STEEL POSTED ARCHWIRE

- Various wire size and span distance
- Excellent for use with spring
- Strong adhesive strength with wire
- 12 types for each classified span length

Size (inch)	Span Length (mm)						QTY	
0.016 x0.022	Upper	34	36	38	40	42	44	10 wires / pack
0.017 x0.025								
0.018 x0.025	Lower	22	24	26	28	30	32	
0.019 x0.025								

WIRE FOR LAB

- Excellent surface smoothness
- Resistant to oral corrosion

Size mm (inch)	Type
0.35 (0.014)	12 meters (Roll)
0.40 (0.016)	
0.45 (0.018)	
0.50 (0.020)	12 meters (Roll) / 500g (Roll)
0.60 (0.024)	
0.70 (0.028)	
0.80 (0.032)	
0.90 (0.036)	
1.00 (0.040)	
1.20 (0.047)	

Elastics

Orthodontics Elastics

- 10,000 total elastics packaged 1 box of 100 patient packs
- High quality surgical latex, Consistent force
- Packaged in easy to use zip top bag

ELASTICS CHART

	Light 2.5oz/70gm	Medium 3.5oz/100gm	Heavy 4.5oz/125gm	Ex/Heavy 6.5oz/180gm
1/8"	 Pink EP 2.5	 Pink EP 3.5	 Pink EP 4.5	 Pink EP 6.5
3/16"	 Orange EO 2.5	 Orange EO 3.5	 Orange EO 4.5	 Orange EO 6.5
1/4"	 Green EG 2.5	 Green EG 3.5	 Green EG 4.5	 Green EG 6.5

3/8"	 Red ER 2.5	 Red ER 3.5	 Red ER 4.5	 Red ER 6.5

Minimum order quantity: 2,000 or 10,000 pieces for each per color

Lighture Wire & Power Chain

Lighture Wire

Twist Lighture Wire

- Easily enable a twisting operation of the wire with one hand, saving time

Preformed ligature Wire

- Made of soft stainless steel
- High quality, Bright finish

Spooled Ligature Wire

- Soft temper and High Strength

Type	Size (inch)	Q'TY
Preformed Ligature Wire	0.008	1000 pcs per pack
Twist Ligature Wire	0.010	500 pcs per pack
	0.012	
Spooled Ligature Wire	0.014	0.25 or 1 pound spool each size

Power Chain

Consistent force available in closed, short, and long filaments
Minimal decay rates for dependable efficient controlled tooth movement.
